H4XF13LD MORRIS 💯 💯 😎 💯 💯
CryptoZombie

Your friend has completed CryptoZombies Lesson 5, and received a level 10 CryptoZombie!

Check out your friend's zombie army to the left. Pretty formidable, huh?

In order to complete Lesson 5 of CryptoZombies, your friend learned about:

1. Tokens, the ERC721 standard, and creating tradable tokens / assets
2. Solidity libraries and how to use them
3. The SafeMath library and preventing uint overflows and underflows
4. Commenting your Solidity code and the natspec standard
